

OPTIONAL MASKING guidelines:

You are still encouraged to wear a mask based on your personal preference, informed by personal levels of risk, and your solidarity with immunocompromised individuals in your immediate circles.

Anyone with symptoms (like running noses, coughing, achiness, etc.), a positive test, or exposure to someone with COVID should participate through one of our online platforms and consciously refrain from in-person activities.

- **Available Masks** (surgical and KN95/N95 preferred)
- **Vaccination** is recommended and preferred, but not required at this time.
- You are free to **move chairs** to the social distancing level you and your pod prefers. Social Hall seating is available as a well-ventilated social distancing area.
- Please **check in** with each other before hugging.
- **Socializing** before and after service should take place outside.
- We are back to in-person singing but we ask that you manage your aspiration.
- **As a suggestion... Please consider masking when singing.**
